**BUILT TO
PERFORM**

A close-up photograph of a heavy-duty industrial pump gear assembly. The main component is a large, dark grey cast metal gear with a complex, multi-toothed design. A smaller, cylindrical metal component with a gear-like inner surface is mounted on the main gear. The background is a plain, light grey surface.

A close-up photograph of a piece of industrial equipment. The main body is a bright orange, heavy-duty plastic or metal housing with a grid-like reinforcement pattern. On the left side, there is a large, silver, cylindrical component, possibly a filter or a sensor, which is partially covered by a clear, protective cap. Below the main housing, there is a black, circular component, likely a pressure gauge or a valve. The entire unit is mounted on a base with several mounting holes.

DY PARTS DEPARTMENT

SAME-DAY OR OVERNIGHT SHIPPING ACROSS THE UNITED STATES AND CANADA

DY's extensive parts inventory includes parts for every concrete pump make and model available in the United States and Canada. We offer original manufacturer parts (OEM) and cost-effective, reliable aftermarket products.

A DEDICATED PARTS DEPARTMENT IN EVERY LOCATION

DY carries an extensive inventory of all the necessary parts and components to keep your pumps up and running.

All OEM DY replacement parts offer the same exceptional quality as the originals to deliver relentless performance in even the most extreme operating conditions.

A COMPLETE SELECTION OF PUMP REPLACEMENT PARTS

While we design, engineer, and construct all DY products to provide many years of reliable service, you may still need to replace worn or damaged parts, as well as OEM DY wear parts and twin wall boom systems to keep your pump in peak operating condition.
